

Green Treasury Bonds 2025 Allocation and Impact Report on a page

\$5.4 billion of \$7 billion raised has been allocated to expenditures in 2022–23 and 2023–24

Most proceeds supported Australia's climate change mitigation efforts over 2022–23 and 2023–24

A range of projects in Australia and our region have been supported, including:

- the 300MW Walla Walla Solar Farm
- Tasmanian Green Hydrogen Hub
- Development of the Central-West Orana Renewable Energy Zone
- Sydney Metro – Western Sydney Airport electric rail
- Climate and Oceans Support Program in the Pacific

| Eligible Green Expenditure | Description | Allocations in 2022–23, 2023–24 (\$m) | Selected impact indicator |
|---|---|---------------------------------------|---|
| CEFC Renewable Energy Investments | Financing investments that add value and develop capability in renewables and low-emission technologies | 422.1 | 500 kt CO ₂ -e emissions expected to be avoided annually |
| Rewiring the Nation | Low-cost financing to upgrade Australia's electricity grid and enable the renewable energy transition | 5.0 | 6.4 GW projected additional network capacity |
| Regional Hydrogen Hubs | Supporting green hydrogen industrial hubs | 35.5 | 191.7 ktH ₂ /year projected annual hydrogen production |
| Community Batteries | Deploying community batteries across Australia | 13.7 | 0.82MW/1.9MWh capacity installed |
| Advancing Renewables Program | Financing R&D projects for renewable energy technology | 305.6 | 96 projects funded |
| Household Energy Upgrades Fund™ | Low interest loans for energy saving home upgrades | 5.0 | 7 energy efficient technologies financed |
| Electric Trains in the Infrastructure Investment Program | Financing the construction of core electric rail transport infrastructure | 3,365.9 | 103.4km of rail will be built or upgraded between 4 projects |
| Driving the Nation Fund | Supporting electric vehicle charging infrastructure | 37.3 | 15 EV charging sites delivered |
| International Climate Finance Projects | Supporting climate mitigation and adaptation in Indo-Pacific countries | 232.9 | 15 initiatives supported |
| Urban Rivers and Catchments Program | Addressing natural resource management problems in urban waterways | 1.6 | Future reporting expected to include impacts from the approximately 100 projects |
| Saving Koalas Fund | Supporting the recovery of Australia's unique plants, animals and ecological communities | 24.8 | 5,564 ha of koala habitat land projected to be supported |
| Reef 2050 | Investing to protect the health and resilience of the Great Barrier Reef | 88.2 | 95 per cent of aquatic species unlikely to experience harmful effects from pesticides |
| Murray–Darling Basin Plan | Recovering environmental water for the Murray–Darling Basin | 871.6 | 23.9 GL/year water registered for environmental use |

Projects support progress towards these UN Sustainable Development Goals
